To the membership of the Official Supporters Club

Dear all,

I have been kept abreast of developments in your discussions with the CSA regarding a possible unification of the two supporters' organisations. I understand that these negotiations have gone well and would like to express my gratitude on behalf of Manchester City for the time, effort and willingness to compromise that has been shown by both parties.

I truly believe that a unified supporters' organisation would reap great benefits for all concerned and it is a development for which we as a club have long hoped. A joint membership of almost 10,000 is a fantastic base from which to grow and build and will allow us to further refine and extend the benefits which we are able to offer this core supporter base.

We would be delighted if you would give this proposal your backing and assure you that the club will facilitate this unification wherever possible.

With thanks for your continued hard work and support.

Garry Cook
Chief Executive Officer
Manchester City Football Club
